

NOTES ON LAYOUT / USE

Plots 1 to 3 - 20m x 6m approx

Plots 4 to 6 & 9 to 12 - 20m x 5m approx

Plots may be divided into two (5m x 10m) if required

Other plots as measured

Paths between plots 1m wide & maintained by each holder...
i.e. the path to the right of each plot as viewed on this plan (with your back to the field boundary)

All sheds, compost bins, arisings & the like to be kept within each plot boundary

It is suggested that small stones may be used to make up the paths between plots
Larger stones/rocks may be used to make up the tracks or left by the side in a tidy heap
